Save Our Seas!

NAMEPA's Mission

A marine industry-led organization of environmental stewards preserving the marine environment by promoting sustainable marine industry best practices and educating seafarers, students and the public about the need and strategies for protecting global ocean, lake and river resources.

Save Our Seas!

NAMEPA's Industry Initiatives

- Annual Environmental Intelligence in Maritime (EIM) events (Houston, Washington DC and New York City) featuring issues important to our industry and the marine environment.
- Promote the balance between commerce and conservation through presentations to members, industry, government, conservation groups and the public.
- Develop programs in partnership to educate and promote industry in best practices and how to protect the marine environment.

Save Our Seas!

Marine Awareness Environmental Training

Online Computer-Based Training Program

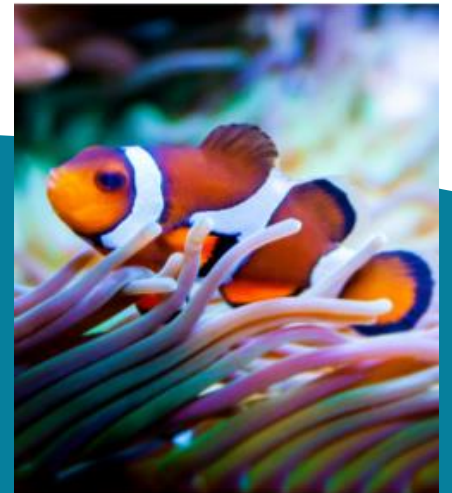

- Comprehensive overview of the marine environment
- Explains impact of shipboard waste, discharge and spills

Pollution Prevention

Marine Ecology

Tools for Effective Environmental Compliance

Assisting seafarers and shoreside personnel in understanding MARPOL regulations.

Adopt A Ship Program

Connecting seafarers and students

ADOPT A SHIP

Connecting seafarers and students

How do I join?

This program is intended for schools, after-school groups, and other organizations with an interest in connecting students to the maritime industry. Interested groups should fill out the Placement Survey for Seafarers at www.namepa.net/adopt-a-ship.

Adopt a Ship is a **FREE** program that will improve seafarer quality of life!

SUCCESSES SO FAR!

85+ ships in the Cyprus program
40+ ships in the Poland program
12,000+ students in the Manila program

QUESTIONS? EMAIL LISA, EDUCATION AND OUTREACH DIRECTOR, AT L.PIASTUCH@NAMEPA.NET
WWW.NAMEPA.NET/ADOPT-A-SHIP

WHAT IS IT?

- Free, useful, sustainable, and well-developed tool that increases student's awareness of seafarers and the entire maritime community
- Helps students understand the critical importance seafarers play in the quality of life for the global population
- Hands-on education that allows students to connect with the marine industry while learning geography, culture, marine operations, and communication skills
- Encourages workforce development to raise interest in a maritime career among students of all backgrounds

HOW DOES IT WORK?

- Senior officer onboard a ship exchanges an e-mail with students, via the teacher, once a week for 6-8 weeks
- Students and officer converse on ship experiences such as weather, cargo, seafaring life, geography, culture, trade patterns, and more
- Children are given a world map with sea lanes to track movement of ship
- Can expand by implementing tests, scheduling in-person visits, video calling, and awarding completion certificates

- Weekly **email exchanges** between senior officers and classroom
- Students learn **geography, culture, marine operations, communication skills** and more!
- Includes **world map** for the classroom

5 May 2020

To: All IMO Member States
United Nations and specialized agencies
Intergovernmental organizations
Non-governmental organizations in consultative status with IMO

Subject: **Coronavirus (COVID-19) – Recommended framework of protocols for ensuring safe ship crew changes and travel during the coronavirus (COVID-19) pandemic**

The Secretary-General is aware of the significant challenges being faced by the global shipping industry to effect crew changes as a result of the coronavirus (COVID-19) outbreak. Due to ongoing COVID-19 restrictions, large numbers of seafarers are having to extend their service on board ships after many months at sea, unable to be replaced after long tours of duty or be repatriated via aircraft to their home countries. Shipping is vital to the maintenance of global supply chains, but the current situation is unsustainable for the safety and wellbeing of ship crew and the safe operation of maritime trade. Each month about 150,000 seafarers need to be changed over to and from the ships which they operate to ensure compliance with international maritime regulations for ensuring safety, crew health and welfare, and the prevention of fatigue.

Welcome to Port Visitor

Port Visitor aims to provide information, support and assistance to seafarers who are affected by or concerned about the Coronavirus (COVID19) outbreak, signposting them to the appropriate resources and organisations.

Sustaining Seafarers' Ministry in a Time of Coronavirus

[Get this course](#)

COVID-19 and Seafarers' Ministry (MARE102)

The current outbreak of coronavirus (COVID-2019) was first reported from Wuhan, China, on December 31, 2019. Early in the new year, mainland China began policies of self-containment and quarantine to slow the spread of the disease and allow health care systems to cope. The World Health Organisation (WHO) recognized it as a pandemic on March 11, 2020. Policies like China's have spread around the world, affecting virtually all countries and ports in which ICMA's members are present. The activities of seafarers' centers and ship visiting in ports around the globe have been curtailed or significantly reduced. As ministries think about how to operate under the current restrictions, and with exit strategies slowly emerging, this course is designed to share best practice and experience. This course uses the see-judge-act method to produce practical results and keep our focus on the welfare of seafarers.
