STABILITY

FCC has been a trusted chemical tanker logistics company for a quarter of a century

STAINLESS

Our modern fleet is 100% Stainless Steel

SERVICE

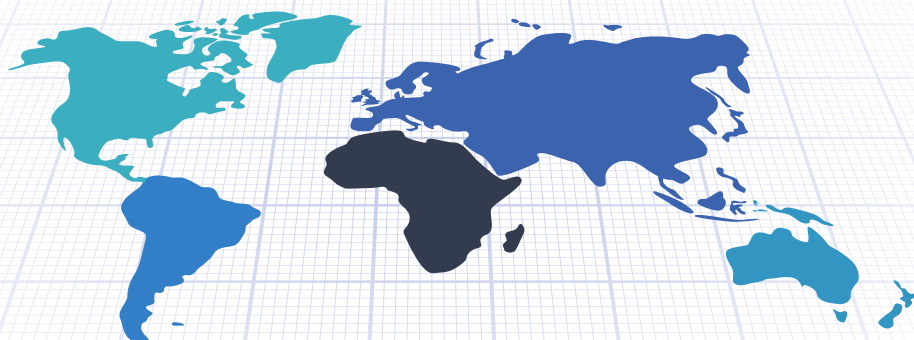

We pursue a goal of Serving our customers with passion, reliability and expertise

Commitment Makes the Difference

At Fairfield Chemical Carriers we strive to provide our customers with superior chemical tanker service that is creative, proactive and always client focused. We maintain the highest standards for safety and efficiency in the operation of our fleet and conduct all our activities in a professional, ethical and socially responsible manner.

Dedicated professionals staff our offices in The Netherlands, South Africa, Singapore, Japan and U.S.A, sail on our vessels, and attend to operations at ports around the world.

FCC's state-of-the-art fleet is comprised of over 40 stainless steel vessels that travel to 450 ports worldwide. We can carry 600+ grades of cargoes – if you need to move product we can transport it. We are known for expertly tailoring logistics solutions to our customers' needs.
