

THE LEADING CHOICE FOR CLASSIFICATION IN NORTH AMERICA

For more than 160 years, the American Bureau of Shipping (ABS) has been the class of choice for North American ship owners and operators. With our global headquarters in Houston and surveyors located in all major North American ports and shipyards, we are positioned to provide rapid support to our clients. We also work closely with the U.S. government, to gain a better understanding of U.S. regulations so that we can assist our clients.
